

**Schedule 3.
Sliding Scale for High-Income Premiums**

Income Bracket (CY 2000)	Percent of Poverty	Additional Premium Percentage
-----------------------------	--------------------	-------------------------------

Married Filing Joint Return

\$30,000	300%	
\$32,000	320%	1.5%
\$34,000	340%	3.0%
\$36,000	360%	4.5%
\$38,000	380%	6.0%
\$40,000	400%	7.5%
\$42,000	420%	9.0%
\$44,000	440%	10.5%
\$46,000	460%	12.0%
\$48,000	480%	13.5%
\$50,000	500%	15.0%

Single Return

\$24,000	300%	
\$25,600	320%	1.5%
\$27,200	340%	3.0%
\$28,800	360%	4.5%
\$30,400	380%	6.0%
\$32,000	400%	7.5%
\$33,600	420%	9.0%
\$35,200	440%	10.5%
\$36,800	460%	12.0%
\$38,400	480%	13.5%
\$40,000	500%	15.0%

Notes: The income brackets would be indexed to the Consumer Price Index.

Each extra percentage point of premium liability would amount to about \$4 a month on average if the policy was implemented in the year 2000. That amount would increase over time.
